# PROCESS

Every mural starts with 2-3 initial design concept sketches, a round of revisions, and then finally the finished mural painting. Courtney uses her expertise in typography, handlettering, and fine art painting to create designs that are completely original and unique. We do not use clip art or generic fonts, instead opting to hand-draw each part of the design, creating a finished piece that feels balanced and elevated.

When you work with Spindles Design Co. for a mural, you are commissioning a piece of original artwork for your space. Our murals create spaces that feel memorable and special.
